DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-16 are rejected under 35 U.S.C. 102(b) as being anticipated by Barton et al. (3,451,288).

Barton et al. discloses an assembly unit for a motor vehicle, the assembly unit comprising a bearing block (12) having mounts, a bolt and a lever arm arrangement (10), having a pedal, arranged in said bearing block pivotably around an axis of said bolt fixed in multilayer bearing elements (44,46) that are positioned on said mounts, said bearing block having a section expanding in case of an accident so that the bolt disengages from said mounts. Barton et al. further discloses said lever arm supported by flange-like sections (see fig. 1) at said bearing element of said bearing block and said lever arm having a stop on an inner contour (16), said stop forming a contact surface with said bolt. Barton et al. further discloses a two-part bolt (28,48) having an elastic snap connection area on which individual bolt parts are engaged with one another in a positive-locking and nonpositive manner and not made in one piece with said bearing block. Barton et al. further teaches the first bolt part having a slotted end with hook shaped areas (see fig. 2) having tapering sections facing another bolt part (28) which has an engaging contour, behind which extend said hook-shaped areas of said first bolt part.

Response to Arguments

3. Applicant's arguments with respect to claims 1-16 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
